

國立臺灣科技大學資通訊設備校時伺服器說明

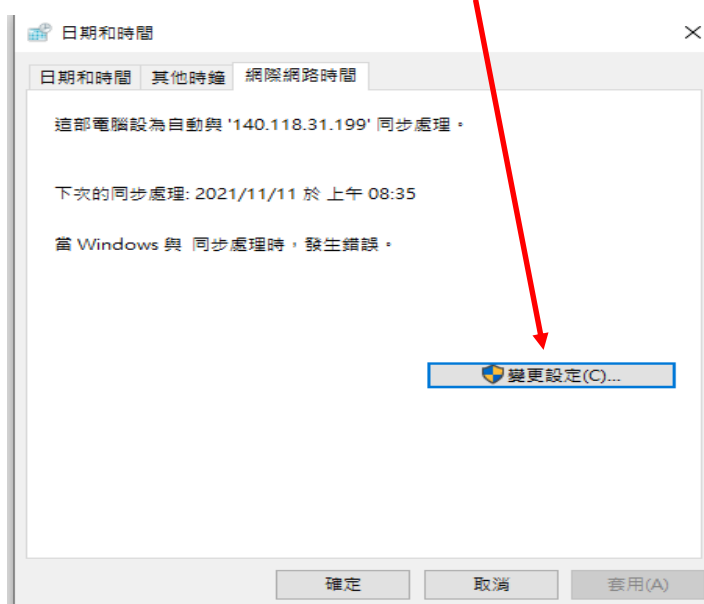

1. 本校校時伺服器為 140.118.31.199
2. 依資通安法及相關規定，本校資通訊設備均須定期進行校時，以維護時間的正確性，避免時戳不同，發生資安事件。
3. 若有相關設定問題或疑義，可洽電算中心 林念修先生 (02)-27303257
nslin@mail.ntust.edu.tw

4. Windows 10 作業系統設定範例說明

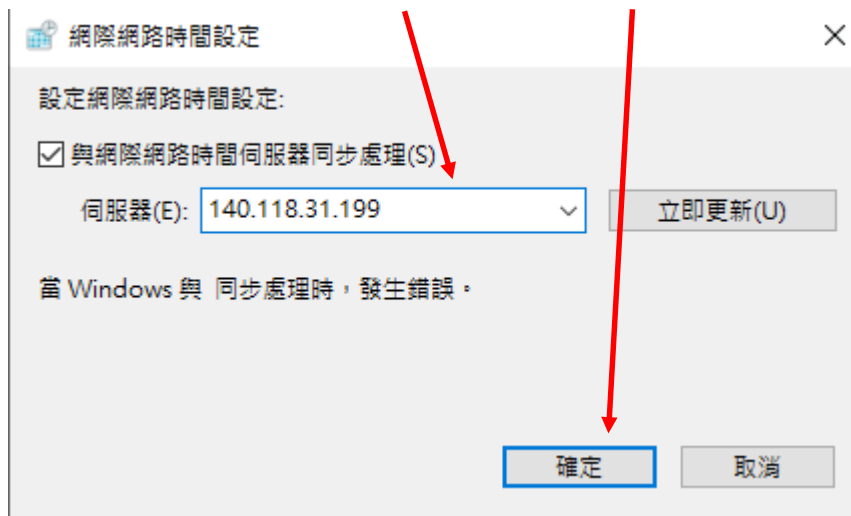

4.1 開啟控制台 → 點選日期與時間

4.2 點選網際網路時間 → 點選變更設定

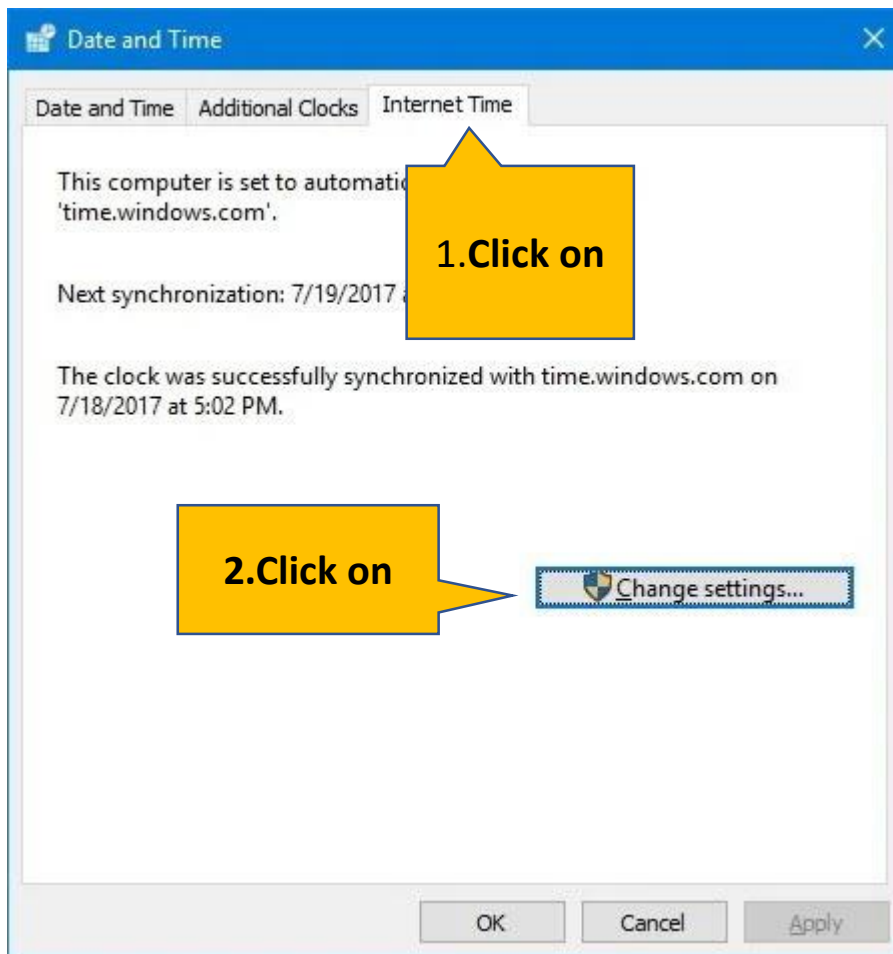

4.3 於伺服器欄位輸入 140.118.31.199 → 點選確定 → 設定完成

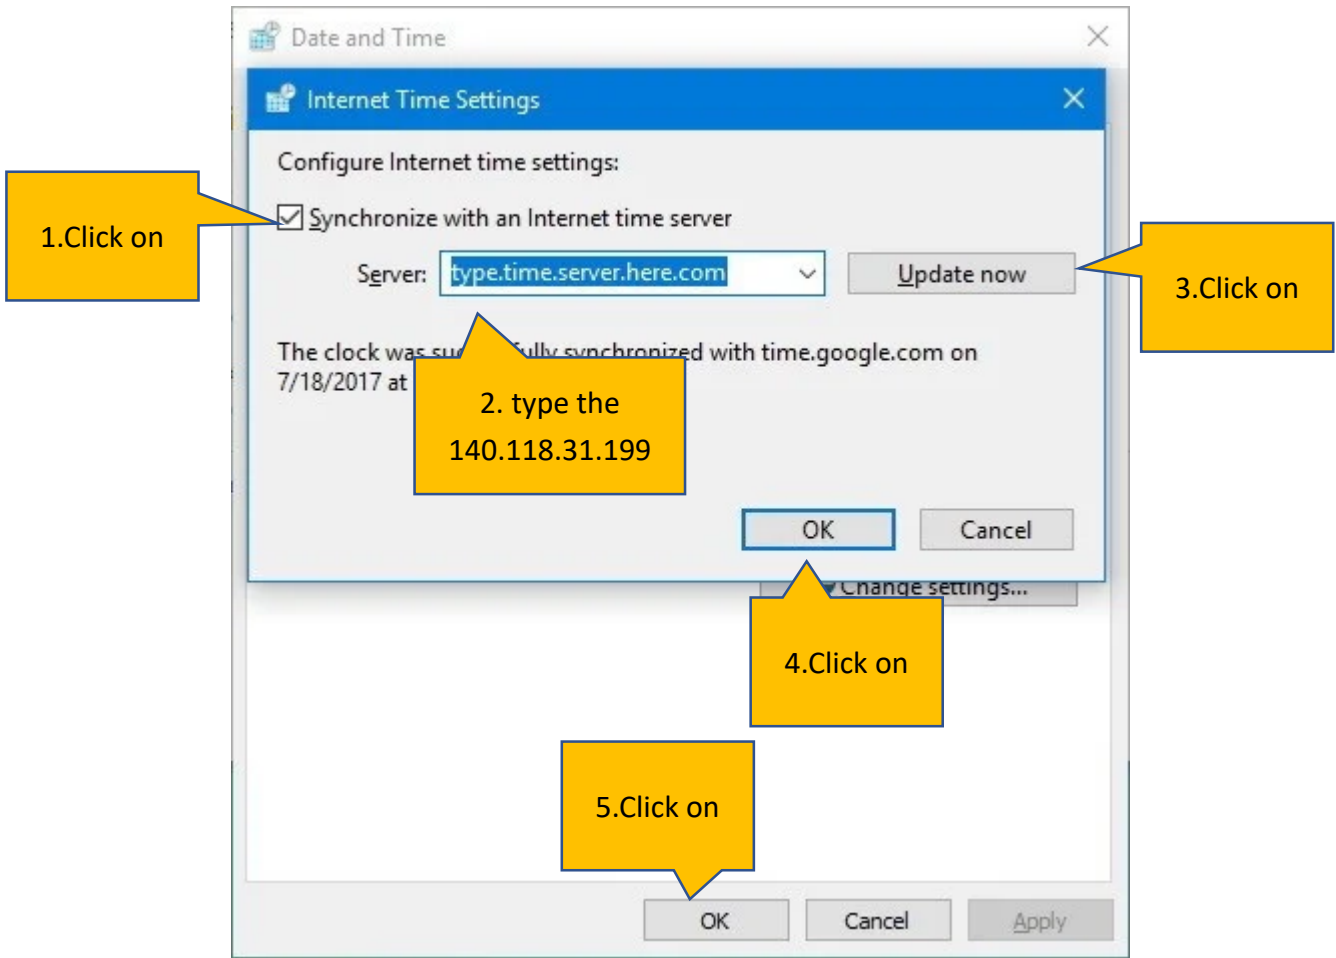

How to Change NTUST Internet Time Server in Window 10

1. Open the **Control Panel** (icons view), and click/tap on **Clock, Language, and Region** icon.
2. Click on **Date and Time**.
3. Click/tap on the **Internet Time** tab, and click/tap on the **Change settings** button.
(see screenshot below)

4. Check that the **Synchronize with an internet time server** option is selected
5. Enter **140.118.31.199** (address of NTUST time server) in the drop-down menu, next to "Server".
6. Click the **Update now** button to resynchronize.
7. Click **OK**

8. Click/tap on **OK**, and close the Control Panel.
